

Seed vs. Sod. The honest version.

SEEDING		SODDING
COST (5,000 sq ft)	~\$2,000-3,000	~\$10,000-15,000
TIME TO LAWN	4-8 weeks	Same day
GRASS TYPE	Tall fescue (drought-tough)	Mostly Kentucky bluegrass
WATER USE (long term)	~30% less	High in Utah summers
ROOT DEPTH (year 1)	8-12 in	4-6 in
PLASTIC NETTING	None	Usually yes, in soil

3 reasons seeding wins for Utah:

- **RIGHT GRASS.** Valkyrie tall fescue is bred for hot, dry climates.
- **30% LESS WATER.** Deeper roots find moisture below.
- **NO FOOTPRINT.** Sod travels by truck. Seed travels in a 50-lb bag.

What does YOUR lawn look like?

MOSTLY GREEN, JUST TIRED	→ <i>Summer Lawn Rescue</i>
PATCHY, THINNING	→ <i>Fall Overseeding</i>
MOSTLY WEEDS OR BARE	→ <i>Fall Renovation</i>
NOT SURE	→ <i>Free Walk-Through</i>

Three ways we make your lawn the best on the block:

SUMMER LAWN RESCUE Soil test · K boost · Biostimulants · Custom fertilizer program <i>Available year-round.</i>
FALL OVERSEEDING Aerate · Valkyrie seed · Starter feed · Tenacity weed control <i>Aug-Oct only.</i>
FALL RENOVATION Full 4-phase kill & reseed · Premium Valkyrie · 8 slots / season <i>Aug-Oct only · Book by July 15.</i>

SPRINKLER AUDIT REQUIRED FOR SEEDING · \$125
Passing audit = guaranteed germination. We do the audit + any repairs ourselves.
